**2013 BARBERA**

"... high in acidity and low in tannin... a great choice for California vintners wishing to craft versatile, food-friendly wines. Famed vintner Jed Steele has managed exactly that... shows full ripeness but remains admirably bright even with a few years under cork. Very well done. A Platinum Award winner at the 2017 San Diego Challenge International Wine & Spirits Competition." M.F. 4/4/17
