

## 2013 Aligote

You may have never heard of Chardonnay's sibling from Burgundy Aligote but you'll be glad you tried it! Crisp and clean, a nice balance of fruit and acidity, that's how we describe our Aligote. Flinty, mineral elements mix with a light floral hint on the nose, followed with the suggestion of green apple and citrus on the palette, making it a wonderful, food wine. For pairing, Aligote and oysters are always a favorite at Steele Wines.
